

Social Distance Mini Projects

Due to the current coronavirus circumstance and the challenging time we are all facing, we want to support all applicants and existing BMet students. We believe it's not too early to kick start your learning and prepare for your new journey. Therefore, we have provided you with course materials, learning resources and some interactive distance mini projects for our university-level courses.

Why get involved?

- See what your course has to offer
- Increase confidence
- Develop skills such as individual study, creative thinking, presentation skills and more that are transferable skills in a workplace
- Opportunity to develop research and study skills that are essential throughout your journey
