BMet

Welcome to BMet
where students are at the
heart of everything we do

Thank you for considering BMet

Own your future now and start a course with us.

Over the coming pages we will show you a variety of exciting study options – which we hope will convince you why we could be right for you.

Whatever you want to achieve and wherever you're starting from, we're here to help, with an exciting range of courses designed to boost your career prospects.

We're a family of three colleges across Birmingham:

- James Watt College
- Matthew Boulton College
- Sutton Coldfield College

All our courses are aligned closely to industry and we have links with some high-profile employers – see page 20 to find out more. Our relationships with employers help to shape our courses to give you exactly the skills you – and they – need.

So, whether you're an entry level, vocational or A level student, you'll gain the skills you need to achieve your ambitions.

Some of our courses are available at all our colleges, while others are unique to just one.

This prospectus will give you an overview of our colleges and courses and where you can study them.

If you've got any questions or need some advice do get in touch via ask@bmet.ac.uk

You can also visit our website or pop along to an open event (see page 8).

OWN IT!

Happy reading and best of luck with your future – we hope to be part of it.

OUR COURSES LEAD TO CAREERS

Find out what animal you are with our Launch your Career Quiz!

If you are unsure what to study or what area you are interested in, why not visit bmet.ac.uk and take our quiz – this will help you find out what you are like and what you could do.

We have

Equality, diversity & inclusion

at our core

BMet

READY RESPECTFUL SAFE

At BMet you can expect to study in a friendly, supportive environment. Support will be on hand from your personal tutor, course lecturers and our student experience team. Every day we make sure we are ready to study, are respectful of each other and are in a safe environment. Ready, Respectful, Safe is more than a motto it's a way of life at BMet.

Our colleges at a glance

We have three big colleges in the heart of Birmingham each with their own unique character offering something for everyone.

All our colleges have excellent transport links. In addition, James Watt College and Sutton Coldfield College also offer free parking.

We love them all – so we'll leave it to you to decide which one is right for you.

Save the date!

Our open events take place throughout the year and are a great opportunity to find out more and to ask us any questions! It's your chance to put us in the hot seat.

Early Years

Foundation Learning
(if you need to develop your English and/or maths skills before moving on to a vocational course)

Health and Social Care

Media and Games

School of Built Environment

James Watt College

North Birmingham

A technical and vocational college specialising in the fields of construction, engineering, media production and games design, early years and health and social care. All this and a really strong apprenticeship programme – there is much to like about this college.

Located in Great Barr, just four miles from Birmingham city centre is where you will find James Watt College.

Very much an industry focused college with excellent facilities and passionate teaching staff, all ready and waiting to help you to develop the skills you will need to launch your future career.

James Watt College also offers courses for adult learners; including part-time, full-time and university-level options. The college also has a satellite site; Erdington Skills Centre.

Erdington Skills Centre is a specialist construction centre that offers a range of courses. The centre offers purpose-built facilities including classrooms and workshops, which have been specifically designed to house training rooms for all of the construction trades. This includes painting and decorating, plastering, carpentry and joinery and electrical workshops. This is a truly impressive site that gives hands-on training, getting students work ready from the off!

before moving on to a
vocational course)

Matthew Boulton College

Birmingham City Centre

A vocational college with strong links with professional services. Home to the only official Careers Colleges in the region.

The impressive Matthew Boulton College is nestled in the heart of Birmingham city centre. This outstanding building won accolades when first built and still looks brand new over a decade later.

Amongst its many outstanding features are specialist workshops, labs, healthcare clinics, study centres and cutting-edge fashion and graphic design studios. All this and amazing shopping only a stone's throw away!

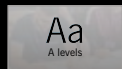

Matthew Boulton College is the headquarters for our Great Birmingham Professional Services Academy and stemming from this are our Career Colleges which may be perfect for you if you are interested in Professional Services or Creative and Digital Industries.

The college also offers courses for adult learners; including part-time, full-time and university-level options.

We also partner with Birmingham Botanical Gardens to deliver our Horticulture and Floristry courses – where better to study than in the beautiful surroundings of the extensive and lush gardens!

Sutton Coldfield College

**In the heart of the
Royal Town of Sutton Coldfield.**

Sutton Coldfield College is nestled among the many green spaces of north Birmingham. This fantastic college is on Lichfield Road, just minutes from the train station and town centre with its shops, cafes and restaurants.

The college offers a broad range of A Levels, vocational courses (BTECs), professional courses and apprenticeships.

Specialisms include A levels, Business, Creative Art, Digital Media, E-sports, Early Years and Education, Finance, Healthcare, Lifesciences, Performing Arts, Public Services, Sport, STEM subjects and Travel and Tourism.

The college also runs a variety of Sports Academies all of which are offered to all BMet students – regardless of which college they study at.

Sutton Coldfield College also offers courses for adult learners; including part-time, full-time and university-level options.

BMet

Get the most from college life

Specialist workshops and laboratories

What better way to get hands on experience than learning day-to-day in our specialist workshops and laboratories – all designed to be authentic and give you that taste of reality.

Courses for careers

Careers really are at the heart of each of our courses. They will guide you on to the right path to your chosen career.

Excellent facilities

First class facilities and experienced teachers from industry – we will give you the best chance to thrive on your course.

Free Wi-Fi for students

Yes – you heard us right! Make the most of free Wi-Fi during your time at college but don't forget lessons are for learning – so save it for your breaks and spare time.

Excellent progression opportunities

With courses on offer at all levels including university level, there will always be a course for you. Keep on learning and building your qualifications right here at one of our colleges.

Libraries and private study areas

Although we want your college experience to be enriching and full of long lasting memories, we also know that when it comes to exam and assignment time, you need private study areas and a well-stocked library – and that's exactly what you can expect at our colleges!

Industry links and partnerships with local and national employers

Employers have a huge say in our courses and their content and throughout your time at college, you will come face-to-face with employers known to your industry. Get ahead of the game and make yourself known to employers early on! For a glance at just a few of the employers we work with see page 20.

You are at the heart of all we do

Students are at the heart of everything we do and as such we make sure you have the resources to help you succeed.

Careers advice

At each of our colleges, we have a dedicated Careers Advisor, who can give you the careers advice, information and support you need to achieve your career goals. They can also help you with your CV and university application. Top tip – you can also study at university level with us!

Mentoring Service

Our mentor scheme is designed to help identify and remove any barriers that might be stopping you from reaching your maximum potential by helping you increase your confidence and motivation. The mentors offer support with study skills, motivation, and time management techniques.

Help with the costs of studying – for qualifying students

We can help with the cost of travel (public transport), equipment costs and in some cases can offer meal allowances. Our student experience teams based at each of the colleges will be able to let you know if you qualify for support. If there is something we can do to help you – we will.

Top tip!
you can also study
at university level
with us!

Inclusive Support

If you need more support – we are with you every step of the way. We believe that high quality support is an imperative part of students' success enabling every individual to reach their academic potential. The college offers a variety of inclusive support methods depending upon individual needs. We also offer support to students with SEND with their transition into college. If you declare you have an EHCP on your application form, you will be invited in for an interview with the SEND coordinator, for the site, to ensure that BMet can meet your needs prior to the curriculum interview.

Counselling service – taking care of you

We like our students to be supported as much as possible whilst studying at college. If you have a problem and friends and family aren't able to help, counselling will provide you with an opportunity to talk and discuss your concerns or worries freely and openly – with a counsellor who won't judge you or your issues. No problem is ever too big or small to bring to counselling and talking about how you feel can really help. After all, a problem shared is a problem halved!

Life outside the classroom

Fulfilling enrichment programme

Each college has its own dedicated Enrichment Officer, focusing on how you can make the most of college life outside of the classroom. Activities may include trips, events, volunteering, excursions and much more. You'll be so busy having such a good time at college that before you know it, your course will be finished and you'll be ready to take on the world!

Sports academies

Our specialist sports academies offer dedicated training in mens and ladies football, rugby, golf and netball. Our academies offer the opportunity to gain coaching qualifications alongside your studies with the possibility of work placements too! You could take part in fixtures around the UK and could be in with the chance to apply for USE university sports scholarships. There will also be opportunities to represent the college at the regional and National Sports Championships in a variety of sports.

OWN IT!

Have your say

During your time at college you will have the opportunity to apply to become a student governor. This is a fantastic way to get involved in the day-to-day running of the college and have your voice heard. If you succeed you will become the voice of the student body and have the chance to really ignite change.

Feeling inspired? We hope so.

Refresh & go!

Many people love Starbucks. Whether you are an avid coffee lover, simply enjoy a cup of tea or love an iced fruit smoothie, our colleges won't disappoint. All of our colleges have a Starbucks, making it useful for those days when you need a little pick me up.

Naghma
Current Student Governor

What's next?

Work Experience – Be work ready

If you study a vocational course, we will encourage you to complete 30 hours work experience. Via our strong links with employers, we will do our best to help you secure a place and give you the right opportunity to suit you. Work experience will help you to develop your skills in a real working environment – what better way to prepare yourself for the world of work?!

* This may vary by course

Institute of Technology (IoT)

BMet are proud to be part of the region-wide collaboration that is the Greater Birmingham and Solihull Institute of Technology. The IoT is transforming science, technology, engineering and mathematics (STEM) education by addressing specific technical skills gaps in this area. The IoT will target under-represented learners, giving them a clear progression route from education into technical jobs and providing employers with a skilled workforce. Watch this space!

**OWN
IT!**

The A – V of qualifications – we've got you covered!

Own it!

A Levels

To study a programme of three A levels with us, we ask that you have a minimum of five GCSEs at Grade 4 and above – including maths and English plus subject specific requirements and an average point score of five. For A level arts related subjects, we also need to see your portfolio (at least five pieces of your work). Please check course details for any specific course entry requirements.

Aa
A levels

English & Maths

Developing your English and maths skills is a vital part of your programme of study at BMet. If you haven't already achieved a 9-4 grade (the equivalent of an A*-C) grade in English and maths, we will help you work towards this. We also offer Functional Skills and ESOL qualifications from entry level to Level 2.

Qualifications in these subjects:

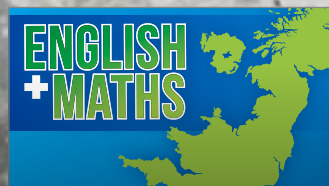

- are valued by employers and all education providers
- support you to get a job or progress to higher level courses /university
- help you develop skills which will be useful in your everyday life.

Vocational Qualifications

Vocational qualifications involve a mix of practical and theoretical study, that will develop specific skills and understanding linked to a particular field and will prepare you for further/ higher education or employment.

Apprenticeships

A programme of study alongside a role in industry – designed to give you the skills, knowledge and understanding to make an impact in your chosen job role.

Which level is for you?

We offer a range of courses at a level that is right for you. The typical entry criteria are shown below, although your chosen course may have specific requirements. If you are unsure about the level of study that will best fit your skills and experience, please talk to one of our Student Services Advisors.

Alevels

5 GCSEs at Grade 5 (B or C) and above – including maths and English Language plus subject specific requirements and an average point score of 5

Aa
A levels

Level 1

No formal requirements

LEVEL

1

Level 2

4 GCSEs at Grade 3 (D) and above or Level 1 vocational programme at a pass grade or above

LEVEL

2

Level 3

National Extended Certificate (formerly Sub Diploma) 4 or 5 GCSE passes at Grade 4 (C) or above, or Level 2 vocational programme at a pass grade or above including GCSE English and/or maths at Grade 4 (C), National Foundation Diploma/ National Diploma (formerly 90 Credit/Extended Diploma) 4 or 5 GCSE passes at Grade 4 (C), or Level 2 vocational programme at a merit grade or above including GCSE English and maths at Grade 4 (C), Diploma in Foundation Studies 2 AS or 1 A level or a National Diploma/ Extended Diploma in a related subject or equivalent qualifications

Aiming Higher – Level 4/5/6

Level 4/5/6 are university level courses and we offer these higher levels right here at BMet! A range of university level programmes are available to study on either a full or part-time basis at BMet.

Entry requirements: A levels, Level 3 Diploma, NVQ Level 3 (in a related subject)

“My apprenticeship was the perfect choice for me!”

“My apprenticeship was the perfect choice for me!”

“Initially when I was at school, I had no real idea about my next steps. I knew I wanted to go into engineering but wasn’t sure which route would be best for me.

“Discovering my engineering apprenticeship at HydraForce was definitely the perfect choice for me!

“My time at James Watt College has been extremely positive and rewarding! I’ve been able to achieve a range of qualifications and training that will help me for the rest of my life.”

Ritik

Former Manufacturing Engineering Apprentice and Student Governor

“I overcame challenges with the support I needed!”

“It was a good challenge for me working full time, studying and looking after three children. Luckily during the apprenticeship, I had the support I needed to be able to do that.

“The staff and students at Sutton Coldfield College are great. Getting to the end of a mammoth task at the end of my portfolio was definitely rewarding and a highlight of my apprenticeship!”

Construction

Why study Construction?

- + The building trade is soaring – with over 200,000 construction jobs set to be created in the next five years, according to the Construction Industry Training Board
- + At James Watt College you will be taught in our Baxi Innovation Academy - one of the UK's leading facilities for the teaching of construction.
- + At the Erdington Skills Centre, you can learn traditional trades such as carpentry, bricklaying, plumbing and electrical techniques
- + You get to build the stuff people depend on and see immediate results from your work – who doesn't want to make a difference?!
- + Construction apprenticeships available with us!

School of the built environment

- + New to BMet is the School of the Built Environment – delivered by the construction teaching team at James Watt College.
- + The School of Built Environment (SOBE) provides clear pathways into employment or progression to further higher education study within a dynamic, exciting and consistently evolving sector.
- + Our new School of Built Environment has full time courses for school leavers where they can gain qualifications and develop skills in order get employment within this ever-advancing and fast-moving industry.
- + SOBE offers industry recognised Qualifications within the Construction and the Built Environment sector which can lead to an exciting career in the sector.

A portrait of a young Black man with long dreadlocks and a beard, wearing glasses, a blue and yellow plaid shirt, and a black jacket. He is smiling slightly and looking towards the camera. A purple lanyard with a cross pendant is visible around his neck. The background is blurred, showing what appears to be a library or study area with bookshelves.

Engineering

Why study Engineering?

- + Engineering is a broad field that offers exciting career opportunities where you'll get to be creative, solve problems and explore how things work every day
- + Engineering can offer a chance to continually develop and improve a product or range of products, making a difference to people's lives.
- + Rail engineering is another key sector that we are currently working in, with a huge growth in our own rail academy
- + We have CAD courses using auto-cad and solid-works software – to equip you with the ability to produce drawings of the highest standard for architectural and engineering development
- + We have partnerships with BMW, as well as other major national companies, which means industry insight and support
- + We offer engineering and manufacturing apprenticeships with some of the world's largest employers

Fashion & Business

Why study Fashion & Business?

- + Fashion contributes nearly £21 billion to the UK economy and is the largest employer of all the creative industries.
- + A number of our courses are accredited by the prestigious UALAB (University of the Arts London Awarding Body)
- + Our fashion labs at Matthew Boulton College attract hundreds of learners eager to learn in the vibrant setting
- + You will get to work on collaborative projects and take part in exciting visits and activities
- + Benefit from first-hand experience on practical projects such as organising an 'on location' photoshoot, an end of year show, producing a magazine, creating a catwalk event or running a pop up shop

“I’ve had a fantastic time whilst learning a range of new things!”

“I definitely feel that James Watt College has catered for my needs. The support I have received here is invaluable and I have had a fantastic and fun time, whilst learning a range of new things that will be helpful in my future.

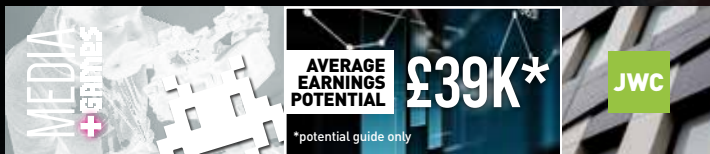

“This college has really built my confidence and I know that an exciting and interesting career awaits!”

Precious
Life and living skills

Games Design

Why study Games Design?

- + Be at the centre of the future of entertainment - the video game sector is booming, and showing no signs of slowing down
- + We have led the way in delivering games design and programming in the Midlands for over a decade
- + The courses fuse traditional and digital art techniques to design characters, assets and environments for computer games
- + You are encouraged to experiment with a variety of techniques and hone your own, individual style and build a portfolio to aid your progression into the games industry
- + You will use the latest industry standard professional level software including Adobe CC and Autodesk Maya and will learn to create professional level assets such as characters, vehicles, environments and objects for current gen platforms such as PC, Playstation and Xbox
- + Utilize traditional and digital art and design techniques to fulfil creative 'live' briefs
- + Work with our industry experienced staff to grow as artists and developers

Health & Social Care

Why study Health & Social Care?

- + Promoting a healthy lifestyle, caring for the elderly and infirm and becoming a medical practitioner, are arguably some of the most fulfilling career paths a person could pursue.
- + Other careers include working in children's healthcare, mental health care, midwifery, social work and teaching
- + Healthcare is one of the fastest growing sectors. As people live longer, more and more people need care and support, so you can rest assured that there will always be a huge demand for your skills and experience
- + Benefit from specialist teaching with us to future proof your career
- + Gain hands on experience at a series of practical workshops

Horticulture & Conservation

Why study Horticulture & Conservation?

- + Our Horticultural Academy based at Birmingham Botanical Gardens specialises in providing qualifications in horticulture and conservation
- + Horticulture qualifications provide essential skills for working in many different land-based areas including landscaping, tree surgery, parks and recreation and garden centres
- + Study in unique surroundings with 15 acres of landscaped gardens planted with roses, alpines, perennials, rare trees and shrubs
- + Courses are ideal for those looking for a career in horticulture, floristry and conservation
- + Guest lectures from industry experts and workshops to help expand your knowledge
- + Benefit from a mentor programme – where you will receive one-to-one guidance and support from sector professionals
- + Horticulture apprenticeships available with us!

Media, Music & Performance

Why study Media, Music & Performance?

- + Media Production at James Watt College covers a wide range of digital and creative media areas such as film, television, animation, radio, print, web and social media
- + We encourage you to develop as content producers and as the Media Production course develops you'll spend more time working in the media area that most interests you.
- + Enjoy the benefit of using our professional facilities including our industry standard broadcast and radio suite, green screen room and Mac suite at James Watt College and our fabulous professional theatre at Sutton Coldfield College
- + Get to work on live project briefs with local community and industry organisations
- + Work with our celebrated, industry experienced teaching staff
- + Our Performing Arts Academy – based at Sutton Coldfield College has a growing reputation for excellence in the teaching of acting, dance and musical theatre

A close-up portrait of a young Black man with a beard and short hair, looking directly at the camera with a slight smile. He is wearing a dark blue turtleneck sweater. The background is a soft, out-of-focus blue.

“Sutton Coldfield College helped my pursuit of finding ways to perfect my craft!”

“I’ve always known that I wanted to be an actor and my time at Sutton Coldfield College helped me to further pursue my dreams. I was able to learn different perspectives, which helped mould me as a performer.

“Being a student here was so much fun and so helpful in my pursuit of finding ways to perfect my craft. It also gave me confidence with people.”

Performing Arts

Medical & Science

Why study Medical & Science?

- + Our colleges boast exceptional laboratories for the teaching of applied, forensic and medical science.
- + We are also the regional STEM (Science, Technology, Engineering and Mathematics) Centre for the West Midlands
- + We host and participate in many events that promote the study of these subjects at GCSE level and beyond
- + Courses in dental are run at Matthew Boulton College

Sport & Exercise Science

Why study Sport & Exercise Science?

- + If you want to combine your love of sport with a career in the fitness industry, our courses are perfect for you. You could end up being a personal trainer, PE teacher or sports coach.
- + We have excellent facilities to learn in – to develop your sporting prowess and knowledge!
- + Sports performance and excellence courses are delivered at Sutton Coldfield College

*potential guide only

Travel & Tourism

Why study Travel & Tourism?

- + Our travel and tourism qualifications will give you the knowledge and skills required to pursue careers in tour operations, accommodation, promotion, hospitality and event planning.
- + The Airline Cabin Room at Sutton Coldfield College gives a real taste of the airline industry – with passenger seating areas and aisles.
- + Students will also gain a variety of experience at UK airports as part of their course
- + Travel and tourism is one of the biggest industries in the world and provides a wealth of employment opportunities around the globe
- + By studying tourism, you position yourself right in the very centre of the service industry. You will learn skills that are transferable to many other industries

Uniformed Public Services

Why study Uniformed Public Services?

- + Our courses provide you with a strong skills and knowledge base; preparing you for a career within the armed forces, police, fire, ambulance, navy, RAF, prison, security or immigration services
- + You'll get to visit army barracks, RAF bases and training grounds, so that you can develop a better understanding of what it means to represent the uniformed services
- + Physical fitness is very important in many of these roles, along with good communication, team working and problem solving skills
